

Drupal 8 rocks!
(but our CSS & HTML sucks.)

Drupal 8 岩石!
(但我們的CSS和HTML...)

What will make Drupal mobilicious?

groups.drupal.org/mobile/drupal-8

The **Drupal 8 Mobile Initiative** is a concerted effort to make Drupal 8 a first-class mobile platform. This is the official place to discuss those challenges and make plans! Want to help?

1. [Read the introductory blog post by John Albin Wilkins](#), the D8 Mobile Initiative lead.
2. Checkout [Shyamala's Blog on the mobile initiative](#) to find out what we've accomplished as of March 2013.
3. Read [the Mobile initiative page on drupal.org](#) to find most important places to help. *We need documenters, reviewers, thinkers and coders.*

Our CSS sucks.

#our-css div.sucks

The image shows the Taj Mahal in Agra, India, during the "golden hour" of sunset. The white marble mausoleum is illuminated by the warm, orange light of the setting sun. Its four minarets and the central dome are clearly visible. The entire structure is reflected in the calm waters of the reflecting pool in the foreground. The sky transitions from a pale blue to a deep orange near the horizon.
